

STOP SPRAYING GLYPHOSATE ON OUR FORESTS!

A MAJOR INVESTIGATION HAS REVEALED THE FULL SCOPE OF THE U.S. FOREST SERVICE'S PLAN TO APPLY **GLYPHOSATE** AND OTHER **SYNTHETIC HERBICIDES** ACROSS THE CALDOR FIRE SCAR —

DIRECTLY THREATENING THE LAKE TAHOE BASIN'S WATER QUALITY, CRITICAL WILDLIFE HABITAT, AND HEALTH OF LOCAL COMMUNITIES.

THIS DECISION WAS MADE WITHOUT THE STANDARD PUBLIC OBJECTION PROCESS.

OUR WATER, FORESTS, AND HEALTH
ARE AT STAKE AND WE MUST

ACT NOW!

OUR MISSION IS TO **PROTECT TAHOE** AND BUILD A BIOREGIONAL MODEL, WITH LAKE TAHOE AS THE HEART AND HUB, OF HEALTHY FOREST AND FIRE REGENERATION AND MANAGEMENT WITHOUT SYNTHETIC HERBACIDES.
